MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL OVERVIEW:

Global economic growth is generally interlinked to petrochemical consumption where plastic is an important partner. Plastic processing is the pillar of economy in most of the advanced economies. Per capita consumption of the world is 28 kg whereas India's is 11 kg and China 38 kg and Brazil 32 kgs. USA, Germany, UK, Italy, Spain, Australia, Japan, Korea, Taiwan it is more than 100 kg. This means India has big potential to grow as India's per capita consumption is one of the lowest in Asia.

The world economy stumbled in 2015, amid weak aggregate demand, falling commodity prices and increasing financial market volatility in major economies. The world gross product was projected to grow by a mere 2.4 per cent in 2015, marking a downward turn from the 2.8 per cent forecast in the *World Economic Situation and Prospects as of mid-2015* (United Nations, 2015a). The growth rates of gross fixed capital formation and aggregate demand continue to remain subdued. The world economy is projected to grow by 2.9 per cent in 2016 and 3.2 per cent in 2017, supported by generally less restrictive fiscal and still accommodative monetary stances worldwide. The anticipated timing and pace of normalization of the United States monetary policy stance is expected to reduce policy uncertainties, while preventing excessive volatility in exchange rates and asset prices. While the normalization will eventually lead to higher borrowing costs, rising interest rates should encourage firms to front-load investments in the short run. The improvement in global growth is also predicted on easing of downward pressures on commodity prices, which should encourage new investments and lift growth, particularly in commodity-dependent economies.

INDIAN SCENARIO

The **Economy of India** is the seventh Largest economy in the world measured by nominal GDP and the third-largest by purchasing power parity (PPP). The country is classified as a newly industrialised country, one of the G-20 major economies, a member of BRICS and a developing economy with an average growth rate of approximately 7% over the last two decades.

The long-term growth prospective of the Indian economy is positive due to its young population, corresponding low dependency ratio, healthy savings and investment rates, and increasing integration into the global economy. And the outlook for short-term growth is also good as according to the IMF, the Indian economy is the "bright spot" in the global landscape. India also topped the World Bank's growth outlook for 2015-16 for the first time with the economy having grown 7.6% in 2015-16 and expected to grow 8.0%+ in 2016-17.

Industry Overview

The Indian cable industry is highly fragmented with a large number of producers. The market for cables and wires is mainly dominated by the unorganized sector controlling about 70% of the domestic demand for wires and cables. However, the situation is changing. With the slew of advertising and the publicity campaigns targeted at this segment, companies are getting more and more aware about the quality of products in this category too and making queries before deciding on the purchase of cables and wiring. The government has announced ambitious plans for infrastructure development. One of the primary focus area of the Central Government's development plan is railways, with over Rs. 800,000 Cr as promised investment over the period of 2015-2020.

Industry Structure and Developments

The company's polymer compounds business is directly related to the fortunes of cable industry/

packaging industry and footwear industry. If there is demand push in these segments of Indian economy, the top line and bottom line of your Company will significantly increase. The Directors of your Company are planning to undertake new projects in near future.

Opportunity and Threats

The use of plastic made products has gained considerable response from the customers. In number of items of Retail and Industrial consumption, it is found that the use of Plastic made products has replaced many other products as the best substitute product. This increase, in the use of plastic Products, will open many new areas for the Industry in the years to come.

The Indian Plastic industry has been growing at a rate of 12% over the years and with its true potential harnessed, is all set to reach the 12.5 MMT of consumption. To match this figure, India would require 42000 new machines and around US \$10 billion of project investment by 2020. Packaging, Electronics, Telecommunication, Infrastructure, Transportation, Healthcare and Consumer durables are fast growing sectors of Indian economy, offering growth for plastics consumption.

Indian plastic industry is highly competitive. Moreover, the competition is increasing with the emergence of new global players and other domestic unorganized players. Increased competition might lead to price reductions, decreased sales, lower profit margins thus adversely affecting the business of your Company.

Annexure–B to the Auditors’ Report

Report on the Internal Financial Control under Clause (i) of sub-section 3 of Section 143 of the Companies Act,2013 (‘the Act’)

We have audited internal financial controls over financial reporting of kkalpana Plastick Limited (Formerly: Kalpena Plastiks Limited) (the Company’) as of 31st March,2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal controls based on the internal over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India(‘ICAI’). These responsibilities include the design, implementation of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information as required under the Companies Act,2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (‘the Guidance Note’) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act,2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statement for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company (2) provide reasonable assurance

that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of the Management and directors of the Company, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitation of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also projections of any evaluation of the internal financial controls over financial reporting to future periods are subjects to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March,2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
